

# COLOUR SORTING

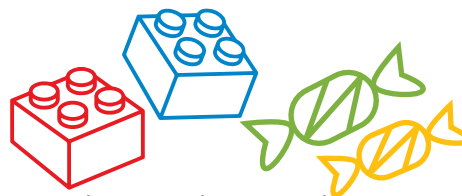

You will need:

a muffin tray or bowls

food tongs

lego/beads/blocks/sweets/bricks

Set up this sorting task for kids making use of whatever you can find in the home.

1. Find a muffin tray or several bowls and a pair of food tongs.
2. Gather the colourful objects into a pile and let the kids sort them into the tray or bowls using the tongs.
3. You could add complexity by trying different objects such as pebbles or leaves, and sort by size.
