

SALT BINGO

You will need:

salt

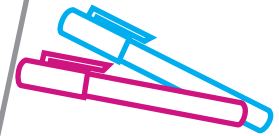

glass dish

spoon, spatula or food brush

paper

pens

Make home learning fun with some salt bingo!

- Put 1 bit of paper under the glass dish and draw round it.
- Within the dish shape, draw a series of symbols, letters or numbers - spaced apart - (this is the treasure to find!).
- Draw the same symbols, letters or numbers on a separate bit of paper - this will be the bingo sheet.
- Fill the glass dish with a layer of salt to cover the bottom, and place the treasure sheet under the dish.
- Let your child have fun with a spoon or brush trying to find the treasure - when they find a match, they can tick the bingo sheet. When they find them all - shout BINGO!
- You can also try with maths questions on the bingo sheet, and hide the answers as treasure!
