

THE SUPER SOAP EXPERIMENT

RAINBOW TRUST

SUPPORTING FAMILIES WITH A SERIOUSLY ILL CHILD

You will need:

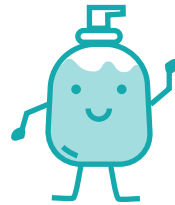

Bowl

Water

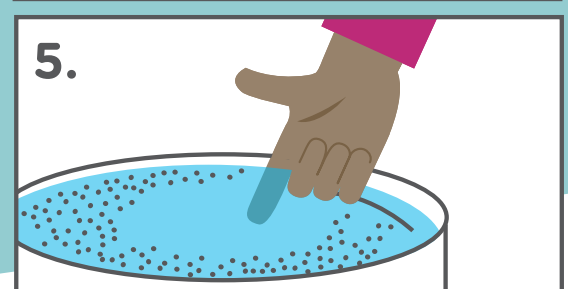

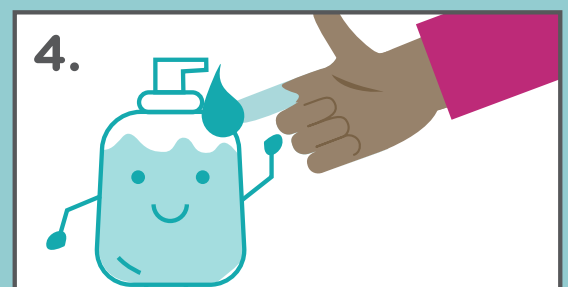

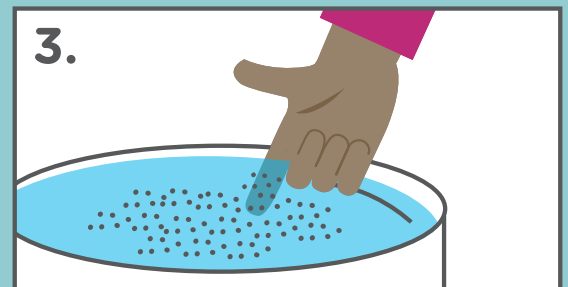

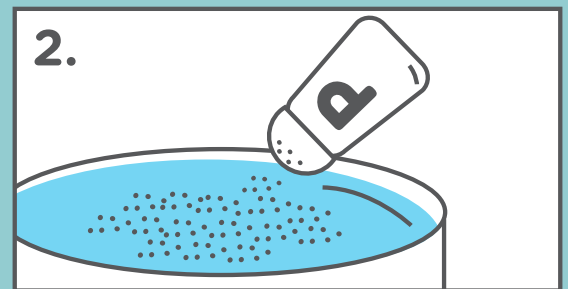

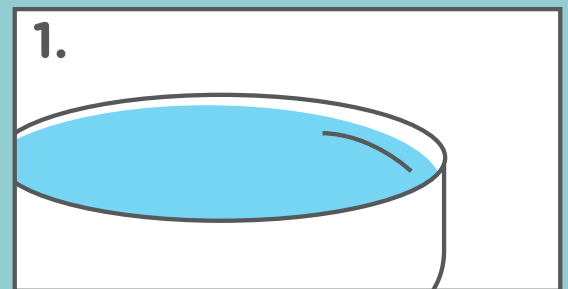

black pepper

Liquid soap

Show how effective washing your hands with soap is compared to washing without soap.

1. Fill the bowl with water
2. Sprinkle some black pepper into the water - the pepper should float
3. WITHOUT SOAP
Dip your finger into the water, and see what happens to the pepper.
4. With a dry hand, put some liquid soap onto your finger tip
5. WITH SOAP
Dip your soap covered finger tip into the bowl of pepper water, and see what happens!
